California Mill Equipment Company is Proud to Announce a New Partnership With:

Scott Equipment Company is a leading manufacturer and global provider of custom processing equipment for the agricultural and industrial markets. Scott Equipment designs and manufactures batch, as well as continuous, mixers and blenders, coolers for ground material and size reduction equipment (i.e. crushers, shredders and fine grinders). In addition, Scott Equipment manufactures the patented AST Drying System, air/product separation equipment as well as square bolted storage bins. Additional services that Scott Equipment provides its clientele include a production scale Test Lab, equipment Rental Program for on-site testing, and complete on-site technical support for start up and field service calls.

Check Out the New Cal Mill Website:

We've just finished retooling our digital homepage, www.calmill.com. We hope we will be able to better serve your needs by giving you constant access to all the information you might need about our products and services.
