California Mill Equipment Company is proud to offer genuine Fischbein consumable items for your bag closing requirements. We stock thread, crepe tape, oil and needles at our Turlock facility for your convenience. Maximize the performance of your bag sewing equipment with genuine Fischbein brand industrial sewing thread, needles, lubricants and crepe tape. Fischbein consumable products are specifically designed and engineered to enhance the performance and longevity of your bag sewing equipment. From hand held portable bag sewers to fully integrated bag sewing systems. Fischbein consumables are the perfect choice.

#### Needles

Fischbein bag sewing needles are specifically designed and engineered to handle a variety of bag materials to include; multi-wall paper, woven polypropylene, laminated woven polypropylene, polyester and jute. Fischbein's D-5 Needle is used in our hand-held portable models and the C-100 Series needles are for our Empress 100 and 200® Series sewing heads. With Fischbein brand sewing needles your assured of a perfect sewn closure.

#### Needle Specifications

High carbon steel  
Precision engineered  
Chrome finish  
Micro polished surface

#### Bag Sewing Thread

The unique sewing characteristics of Fischbein sewing thread can improve the performance and efficiency of your bag sewing equipment and it's compatible with most other brands. Fischbein manufactures a continuous strand thread product that minimizes thread breakage and is impervious to prolong UV light exposure and ambient moisture. Fischbein sewing thread is the perfect choice for multi-wall paper, woven and laminated woven polypropylene bags.
